

## Tasmanian Renewable Hydrogen Industry Network

*Linking business with emerging hydrogen opportunities*

*Beach Hotel Burnie – August 30*

*9:30am to 1pm*

The Bell Bay Advanced Manufacturing Zone, in partnership with Renewables Tasmania, are launching the Tasmanian Renewable Hydrogen Industry Network with a series of business-specific forums held across the state.

This forum at the Beach Hotel in Burnie follows two successful events in Launceston and Hobart and will outline opportunities for business through the emerging Tasmanian hydrogen industry.

Featuring hydrogen industry experts speaking about the fundamentals of hydrogen and what it means locally, nationally and globally, this forum will illustrate the potential for hydrogen to diversify and grow the Tasmanian economy.

Businesses attending this event will hear from these experts, have the chance to question them on all aspects of the industry and the associated technology and then join in a networking event at the conclusion of the seminar.

Producing green hydrogen on the scale planned for Tasmania will be at a size ten-times that previously constructed in the world and will be an incredible opportunity for this state. A high level of innovation, construction and operation will flow into many divergent opportunities for Tasmanian businesses of all types and the Tasmanian Renewable Hydrogen Industry Network is the place for business to learn more.

This event will be held at the Beach Hotel in Burnie on **August 30**, 9:30am to 12pm, with a networking lunch served between 12pm and 1pm.

Facilitated by BBAMZ CEO Susie Bower and co-chaired by Kim Enkelaar of Renewables Tasmania, these events will feature a five-person panel with extensive industry experience.

- Sarah Ticknell, Stakeholder and Regulatory Manager – Future Fuels, Origin Energy
- Cranston Polson, Director H2H Energy (Launceston and Hobart – Burnie by Zoom)
- Fortescue Future Investments
- David Harris, Energy Research Director, CSIRO
- Dave Garnier, Director, Hydrostar Australia

Due to COVID lockdowns on mainland Australia, each panelist will appear via Zoom and present their perspective on the hydrogen industry before an extensive question and answer session. At the conclusion of the event there will be the chance to network with fellow attendees over a light lunch.

***This is a free event***

The itinerary is as follows:

- 9:30 – 9:45am: Guests arrive. Morning tea served.
- 9:45am: Panel presentations covering different aspects of the hydrogen industry and the opportunities
- 11:30am: Q&A
- 12pm to 1pm: networking over a light lunch

To register your interest, please email your businesses details and the details (email, phone) of person who would be attending to [enquiries@bbamz.com.au](mailto:enquiries@bbamz.com.au)
